Webmail

This article describes how WebStupet Clients access their email over the Internet. After reading this article you will know where to access your email and how to change your password. If you primarily use an email client to access your email you must still use webmail to change your password.

Accessing Webmail

1. Use your web browser to navigate to https://mail.ionos.com/

2. Input the email address and password and click login. If you have forgotten your password please follow our password recovery procedures at https://help.webstupet.com/assets/files/Recover%20Password.pdf
