Recover Password page 1 of 1

Password Recovery

In order to verify your identity, you must send password recovery requests from the email account you gave to WebStupet as your communication email. We will only accept requests from that email account.

1. Send an email request to support@webstupet.com.

Subject: Email Password Recovery

Body: Please reset the password for name@domain.com

2. We will send you an email telling you that we reset the email to your default password.
 - o If you do not know what your default password is, send a separate email request to support@webstupet.com and instructions will be sent to you.

Subject: Default Password

Body: I don't know my default password.

3. Please assess the account using webmail and change the password ASAP using the instructions at <https://help.webstupet.com/assets/files/Access%20Web%20Mail.pdf>.
