Maintain Banners

This article describes the banner setup in Opencart for WebStupet clients. After reading this article you will be able to add a banner to your Opencart banners as well as edit or delete banners that are already there. If you do not want to set up your banners contact WebStupet at <u>support@webstupet.com</u> and we will set them up for you at \$4.95 per banner.

About Banners

Banners are image slide shows used to show your products in Opencart. WebStupet establishes the Home Page Slide Show as a part of the basic setup; however, you are required assign the pictures. The Home Page Slide Show is the slide show at the top of your storefront home page.

You can add additional banners but you will need to have WebStupet place the banner on one of your page layouts. Banners can be placed on pages besides the home page, such as the category page. Contact WebStupet at support@webstupet.com for assistance. Additional setup fees may apply.

Accessing Banners

- 1. Log into your WebStupet Opencart administration account.
- 2. Expand the Design menu and click Banners.
